

# How to Resize Your Camp America Application Video

If you are running a Windows Operation System

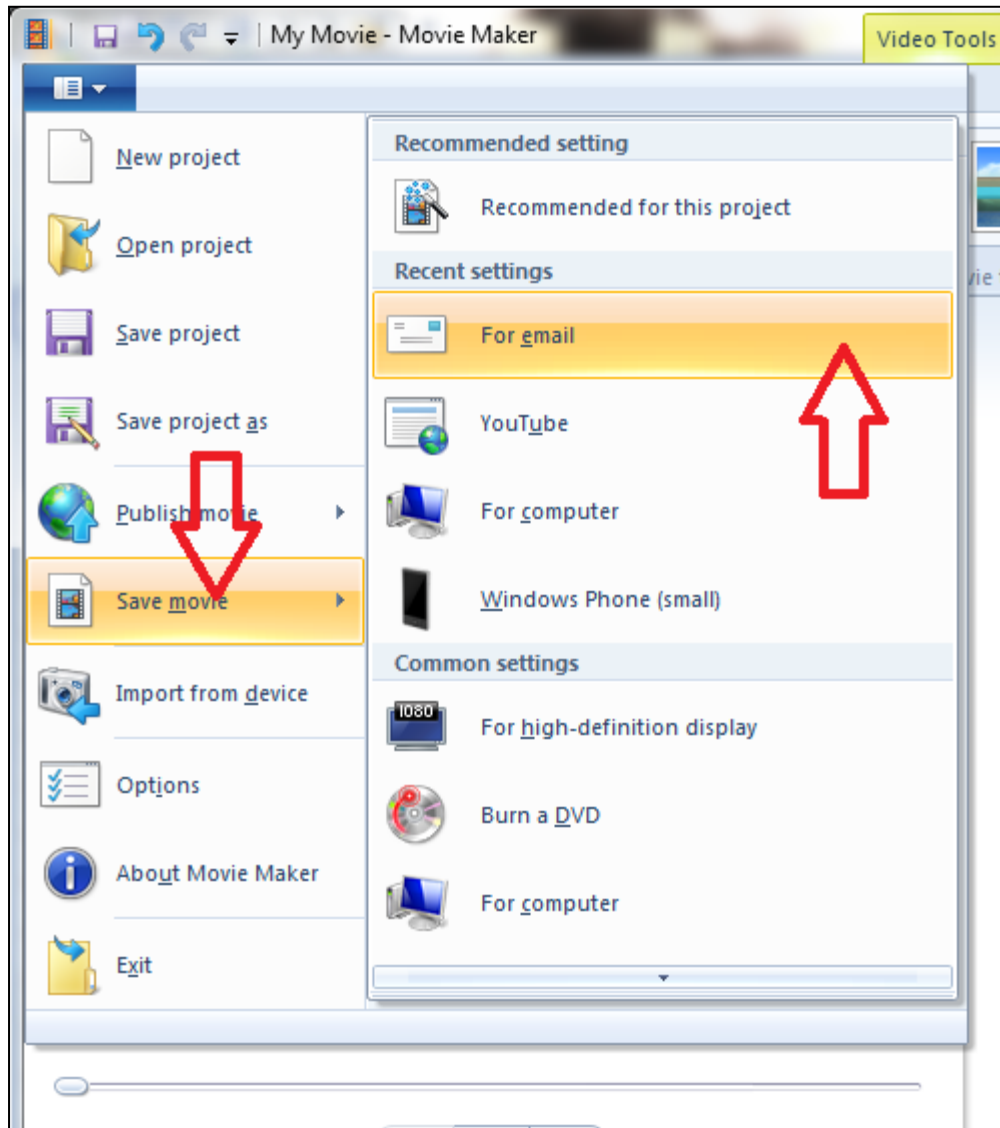

1. Open up your video in 'Windows Movie Maker'.

To do this, right click on your video file, and go to 'open with'.

2. Go to 'File'.

3. Go to 'Save Movie' and pick the 'For Email' option. This will save your video at roughly 11MB per minute.

This means you can have a video up to 4 minutes in length and still come under the 50MB upload limit!

However, we recommend videos are no longer than 2 minutes. Remember, camp directors are busy people!

When you upload a video, the status will say 'Processing'. This should change after a few minutes to 'Awaiting Review'. If it doesn't change, the upload hasn't worked.

If you've been interviewed and successfully upload a video, drop the office an email to let us know and we'll check and approve it. If you upload one before interview, your interviewer will check it for you.

**Happy Videoing!**
